

.NET on Ubuntu — June 2026

Package download statistics for the dotnet/backports PPA on Launchpad.

Reporting period	June 2026 (2026-06-01 to 2026-06-30, UTC)
Data window	2024-04-26 to 2026-07-31
Generated	2026-08-03 00:41:00 UTC
Origin	Backports PPA
Scope	dotnet6, dotnet7, dotnet8, dotnet9, dotnet10 · all Ubuntu series and architectures · debug-symbol packages excluded

At a glance

Headline volume and the month's most material movements.

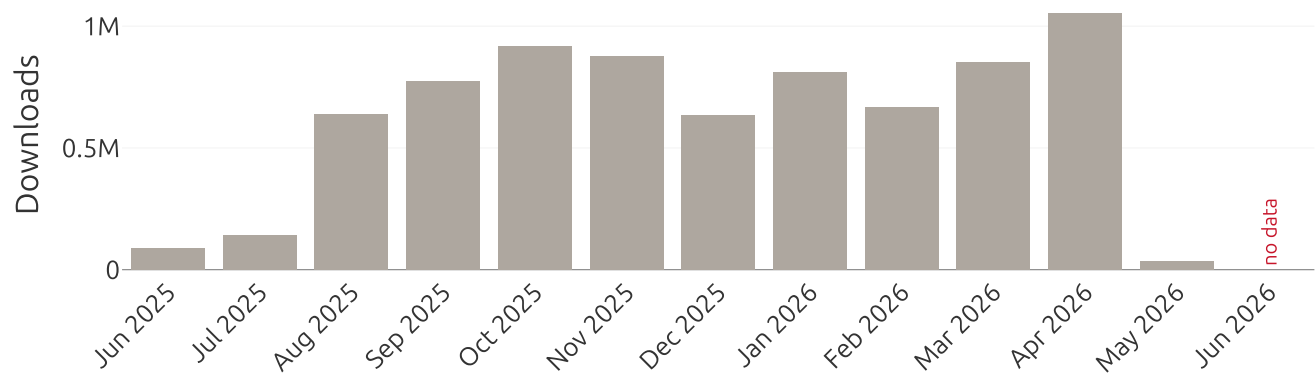

⚠ No data for June 2026. No download counts were recorded for any day of this month, which indicates a collection gap rather than an absence of usage. Nothing in this report may be read as a decline.

Downloads in month no data collection gap for June 2026	Days with data 0 of 30 days in the month	Lifetime to month end 7,817,071 cumulative since 2024-04-26	Collector last run 2026-07-31 latest date present in the dataset
---	--	---	--

Key findings

No download counts were recorded for June 2026. This is a collection gap, not an absence of usage — no figure in this report may be read as a decline in June 2026.

Monthly downloads, last 13 months

Methodology & limitations

Figures count package downloads recorded by Launchpad for the dotnet/backports PPA only.

The primary Ubuntu archive publishes no download telemetry, so packages installed from it are not represented here. This report is a directional indicator, not total .NET usage on Ubuntu.

Downloads are not users. CI/CD pipelines, container image builds, mirrors and repeated installations all inflate counts, and one developer may generate many downloads.

Counts are deduplicated per publication and day, keeping the maximum value reported by Launchpad; recent days may still rise as Launchpad reporting settles.

Debug-symbol packages are excluded from every figure in this report.

No data is collected for any other programming language, so this report makes no cross-language comparison.

Source: Launchpad download counts for Backports PPA. Collected by `scripts/collect.py`; figures reproducible from `data/downloads.json` for month 2026-06.
